

That list identifies APNs within 300 feet of the project... we were looking for the project itself. Do you have that list?

The APN list was provided in Appendix E of our Application. Was there additional information you are requesting or is the 300 ft list in Appendix E sufficient? The APN list contains those properties within 300 ft of the proposed substation and routes.

Thanks,

Ryan Stevenson

Ryan,

You are most welcome. Can you provide the APN(s) list for the proposed substation site and (thereafter) a list of the APNs affected by the proposed route? Thanks much.
